WARNING: Slyways Vacation

Dear All,

If you see anyone selling this membership, please do not apply membership or any trip from them. Slyways Vacation will sell the membership card for Dynasty Vision (as in attachment) in a lot shopping complex (e.g. Carrefour, Jusco, Kompleks PKNS).

When you walk in front to their counter, they will approach you. They will tell you that they are under government (KKKP). They are working for government so that they can get a lot cheap hotels for you. And they did a lot survey to get the cheapest travel ways in Malaysia. Just bullshit!!!!

Actually they are not working for government; their business is not related with government. They are private company. All the logo printed on the membership card is just display, they are not able to get cheap package. They just want to cheat your member fee - RM399.

The main things, their staffs are not qualify to become tour consultant. I had experience been cheated by an agent called Sankan. He is working for Slyways. When I get cheated then I called his leader (Idrus) and boss (Jimmy/Armarni) for help. But they are irresponsible and they will only scold you and ignore your call. They just tell you that this staff already been terminated, your application is not in our system!

For Dynasty Vision, when you call to their service center, whatever question you ask they only have one answer. They don't even understand "English". Their boss is Encik Megat. I hope nobody will be the next victim again.

That's why I send this to let all of you know DO NOT APPLY MEMBERSHIP OR TRIP PACKAGE with these two companies:-
