BEWARE OF INVESTING IN BIRD'S NEST BUSINESS

Before jumping into these TOO GOOD to be true investment scheme, do your investigation.

DO NOT make any payment hastily. No investment should be made using credit card. NO business is that lucrative to use credita card loan which comees with 18% interest per annum.

Also beware the returns promised. Once these promoters have your payment, these retruns are only expected or estimated depending on the sale and demand for these products.

The money in your pocket is yours, once given (nobody took or stole, mind you) to the investor, you yourself is responsible and it is a civil matter even the police will not be of help.

One more to convince you, all these briefing session will not provide any WRITTEN proposals or commitments.
